## Acknowledgement of Manuscript Reviewers JRDS Volume-1 (2015)

The Editors of Journal of Reward Deficiency Syndrome (JRDS) would like to express their tremendous gratitude to all those individuals who participated in the peer review process during the preparation of this Volume-1 (2015). Many reviewers from around the world and across various disciplines provided their expert input that led to publication of the articles. The peer-reviewer's generosity, judicious judgment, and timely response substantially helped us to publish a journal that both is timely and maintains exacting scientific standards; it is a genuine pleasure to express our deep sense of thank to all the reviewers collectively for their dedicated service.
